

# World Happiness Report |

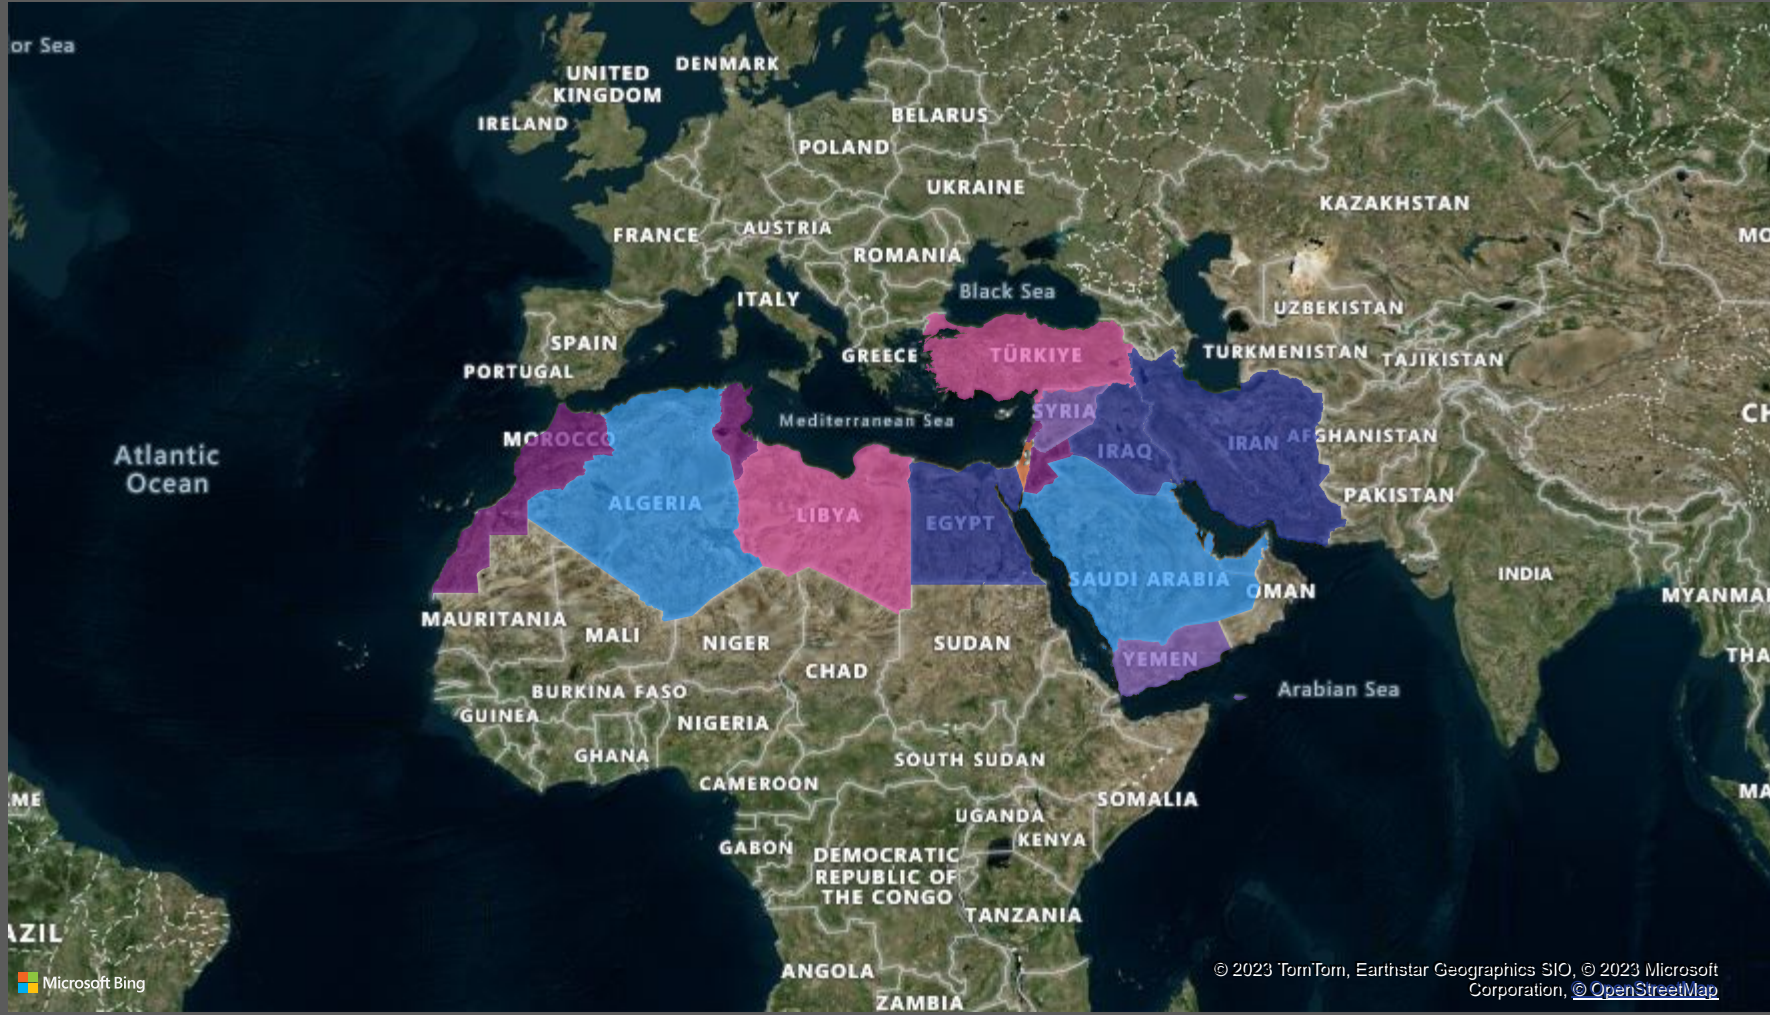

Select Region

Middle East and ...

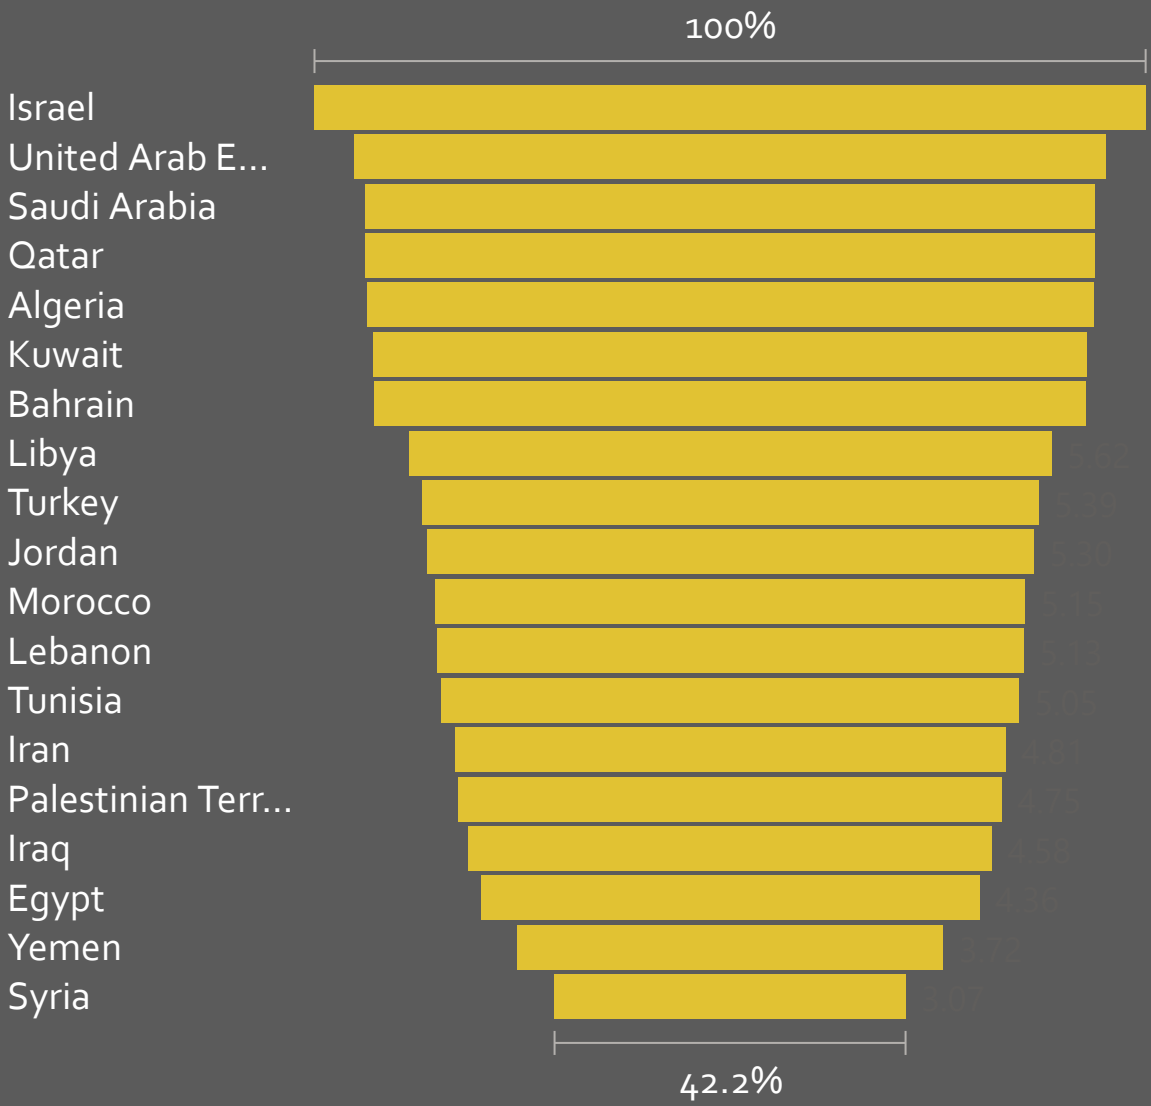

It has been over ten years since the first World Happiness Report was published. Since then, more and more people have come to believe that our success as countries should be judged by the happiness of our people. There is also a growing consensus about how happiness should be measured.

Happiness Rank according to Countries

Low to High 1 27 53 79 105 131

Average of Happiness Score by Country

Is there any correlation between the various factors of a society like - Economy, Life Expectancy Rate, Trust in Government, Freedom and such ? Can we clearly say that a better life leads to better Happiness Rank ?
